Governor Announces “Low Risk” Construction Restart

Ephrata – Governor Inslee issued an addendum to Proclamation 20-25 allowing the restart of construction on a limited basis and effective upon his signature. Once executed by the Governor, building permit inspections can resume for all existing, low-risk construction sites that are compliant with the Governor’s “**Phase 1 Construction Restart COVID-19 Job Site Requirements**”. These conditions must be met before scheduling your inspection and maintained throughout the duration of the Governor’s order. If these measures are not present at your construction site, the inspection will be deferred until the measures are in place. A copy of the Governor’s order and the Phase 1 site requirements will be posted at: <http://www.grantcountywa.gov/GCDS/Building/> as soon as it is available. Please be advised these standards apply to **all** low-risk, existing construction sites both owner-contractor and contractor managed alike.
