35 compliance, including but not limited to: (i) financial, historical, or operational data from
36 the Bidder; (ii) information obtained directly by the Contracting Agency from owners for
37 whom the Bidder has worked, or other public agencies or private enterprises; and (iii)

46 road construction work for Grant County.

47
48 Once the Contractor has commenced operations under this contract the Contractor shall
49 diligently prosecute the same to physical completion within the time provided for in the
50 Special Provision under Time for Completion. Roadway operations shall be defined as
51 all on-site work proposed in this project but will not include crushing of mineral
52 aggregates.

53

1 All costs incurred by the Contractor as a result of this scheduling requirement shall be
2 considered incidental to and included in other applicable items of work.

26
27 No additional compensation will be given the Contractor for any delays and costs
28 incurred because of this provision. All costs incurred shall be considered incidental to
29 and included in other applicable contract items.

30 31 **MEASUREMENT AND PAYMENT**

32 33 **General Requirements for Weighing Equipment**

34 Subsection **Weighers** under Section 1-09.2(1) is supplemented with the following:

35
36 (*****)

37 The Contractor shall provide the Engineer a printed tonnage report at the end of each
38 shift. The report shall be performed by electronic device linked to the certified scale and
39 shall be capable of providing a printout for each shift's tonnage total and accumulated
40 total to date for each aggregate type.

41
42 (*****)

43 The first seven paragraphs of Section 1-09.2(5) are deleted and replaced with the
44 following:

45 46 **Scale Verification Checks**

47 Regardless of the type of scale used, a scale verification test shall be performed daily.
48 The Contractor shall designate a separate, certified, platform scale or a separate
49 commercial platform scale, independent of the scale used for weighing construction
50 materials, to be used for scale verification checks. *The platform scale shall be certified*
51 *at each pit/quarry site before any production begins.*

52
53 Each batch, hopper or platform scale will be tested by routing a vehicle weighing more
54 than 10,000 pounds, or otherwise approved by the Engineer onto a separate certified

1 platform scale or a separate commercial platform scale and comparing the weights. If
2 such a separate scale is not reasonably available, the Engineer may approve a
3 Contractor request to use an alternate method of scale verification checks as described
4 on Form 422-027, "Scaleman's Daily Report" and as appropriate for the type of scale.
5

6 To test the accuracy of a belt-conveyor scale, the Contractor shall weigh five or more
7 payloads from sequential hauling units and compare these weights with weights of the
8 same payloads taken on a separate certified platform scale. If the test results fluctuate,
9 the Engineer may require more than five check loads. Conveyor weights will be based
10 on tonnage values taken from the sealed odometer at the beginning and end of each
11 check period.
12

13 If scale verification checks shows the scale has been under weighing, it shall be
14 adjusted immediately. The Contractor shall not be compensated for any loss from under
15 weighing.
16

17 If scale verification checks show the scale has been overweighing, its operation will
18 cease immediately until adjusted. The Contracting Agency will calculate the combined
19 weight of all materials weighed after the last verification check showing accurate results.
20 This combined weight will then be reduced for payment by the percentage of scale error
21 that exceeds 0.5-percent.
22

23 The Engineer has the authority to request additional scale verification checks at any
24 time.
25

26 **Mobilization**

27 Section 1-09.7 is supplemented with the following:
28

29 (*****)
30

31 Mobilization consists of preconstruction expenses and the costs of preparatory work and
32 operations performed by the Contractor which occur before 10 percent of the total
33 original contract amount is earned from other contract items. Items which are not to be
34 included in the Mobilization item includes but are not limited to:
35

- 36 1. Any portion of the work covered by the specific contract item or incidental
37 work which is to be included in a contract item or items.
- 38 2. Profit, interest on borrowed money, overhead or management costs.
- 39 3. Any cost of mobilizing equipment for force account work.
40

41 Based on the lump sum contract price for "Mobilization", partial payments will be made
42 as follows:
43

44 Mobilization will be paid for each site. When 10 percent of the total original
45 contract production is reached at each site, the appropriate percent of the
46 amount bid for mobilization, as shown in the Summary of Quantities, will be paid.
47

48 Nothing herein shall be construed to limit or preclude partial payments otherwise
49 provided by the contract.
50

3 Section 3-01.2(4) is supplemented with the following:
4

5 (*****)

6 The Contractor shall scalp all pit-run and quarry-run materials over a ½ inch screen
7 before said materials are passed through the primary crusher for the production of
8 crushed mineral aggregates.
9

10 The screens shall be cleaned regularly and examined for holes and wear. Screens with
11 holes shall be replaced immediately. Scalpings shall be removed from the production
12 plant with a belt conveyor and stockpiled in a separate location within the pit or quarry
13 site as designated by the Engineer. The Contractor will not be permitted to use
14 scalpings in the production of base course, top course, maintenance rock, aggregate for
15 asphalt, or crushed coverstone. Reject materials shall also be removed from the
16 production plant and stockpiled with the scalpings. Reject materials will not be permitted
17 to be used in the production of any aggregate products. Reject materials shall be
18 stockpiled at the crushing site as directed by the engineer, at no additional
19 compensation to the contractor.
20

21 The expected production line capacity of the Contractor's crushing operation shall be
22 greater than 300 tons per hour. If the average production level falls below 200 tons per
23 hour, the Contractor shall take immediate steps to correct deficiencies. Failure by the
24 Contractor to meet the minimum production requirements of this section shall be cause
25 for termination of this contract by the County.
26

27 Drawings show the location of proposed excavation limits (blasting limit lines, setback
28 lines or quarry/pit boundary lines). The County believes there is adequate suitable rock
29 in the locations shown. If suitable rock is not found or found in quantities too small to
30 meet production requirements, the Contractor may choose to excavate elsewhere in
31 accordance with the lease and/or reclamation plans.
32

33 The contractor shall be required to blast sufficient material at the Jantz Quarry and the
34 Highland Quarry so as to provide a minimum of 2,000 cubic yards of quarry spalls after
35 all crushed aggregate is produced. The quarry spalls can be left in place after the
36 crushing process is complete.
37

38 No additional compensation will be given to the Contractor for any of these provisions.
39 All costs associated with the work outlined herein shall be included in the unit price bid of
40 other applicable items.
41

42 **State Furnished Material Sources**

43 Section 3-01.3 is supplemented with the following:
44

45 (*****)

46 Reject material and surplus screenings shall be stockpiled in accordance with Section 3-
47 02 at a location determined by the Engineer.
48

49 (*****)

50 The following sources of materials are made available at no cost to the Contractor:
51

52 Highland Quarry #502, Jantz Quarry #520, Mae Valley Pit #563, Neppel Pit #577, and
53 Mordhorst Pit #587 are sources for the production of crushed surfacing base course,

1 maintenance rock, and special crushed coverstone 1/2"(-) products as shown in the plans
2 and specifications.

3 4 **STOCKPILING AGGREGATES**

5 6 **General Requirements**

7 8 ***Stockpiling Aggregates for Future Use***

9 Section 3-02.2(3) is supplemented with the following:

14 smooth uniform surface, etc. shall be included in the various bid items involved in the
15 contract.

16
17 The Contractor shall give the Engineer a tonnage report using a certified scale for each
18 stockpile produced.

19

TITLE VI – Contractor Requirements

During the performance of this contract, the contractor/consultant, for itself, its assignees and successors in interest (hereinafter referred to as the “contractor”) agrees as follows:

1. Compliance with Regulations

The contractor shall comply with the Regulations relative to non-discrimination in federally assisted programs of United States Department of Transportation (USDOT), Title 49, Code of Federal Regulations, part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.

2. Non-discrimination

The contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of race, color, sex, or national origin in the selection and retention of sub-contractors, including procurement of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

3. Solicitations for Sub-contracts, Including Procurement of Materials and Equipment

In all solicitations either by competitive bidding or negotiations made by the contractor for work to be performed under a sub-contract, including procurement of materials or leases of equipment, each potential sub-contractor or supplier shall be notified by the contractor of the contractor’s obligations under this contract and the Regulations relative to non-discrimination on the grounds of race, color, sex, or national origin.

4. Information and Reports

The contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the contracting agency or the appropriate federal agency to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the contractor shall so certify to WSDOT or the USDOT as appropriate, and shall set forth what efforts it has made to obtain the information.

5. Sanctions for Non-compliance

In the event of the contractor’s non-compliance with the non-discrimination provisions of this contract, the contracting agency shall impose such contract sanctions as it or the USDOT may determine to be appropriate, including, but not limited to:

- Withholding of payments to the contractor under the contract until the contractor complies, and/or;
- Cancellation, termination, or suspension of the contract, in whole or in part

6. Incorporation of Provisions

The contractor shall include the provisions of paragraphs (1) through (5) in every sub-contract, including procurement of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The contractor shall take such action with respect to any sub-contractor or procurement as the contracting agency or USDOT may direct as a means of enforcing such provisions including sanctions for non-compliance.

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a sub-contractor or supplier as a result of such direction, the contractor may request WSDOT enter into such litigation to protect the interests of the state and, in addition, the contractor may request the USDOT enter into such litigation to protect the interests of the United States.
