Memo

To: All Plan Holders

From: Jerome Wawers
 Assistant Public Works Director

Date: March 12, 2019

Re: Radar Traffic Recorders - 2019

*JW
3/12/19*

ADDENDUM #1

Proposal Bid Item – 3

The following Descriptions are changed, added and/or supplemented as follows:

Vehicle Data

The Recorder must store data on a vehicle-by-vehicle basis. The data for each individual vehicle must be viewable in the software. The software must be able to save data as, per vehicle binned speed, class, gap and volume

Software Specifications

The software must have the ability to directly download and process data from both models of Radar Traffic Records previously noted above.

The software must have the ability to process per vehicle records and binned data. The software must have the ability to view all data formats on the screen and export them into Windows Excel format along with the following formats: ASCII, PRN, and TMG.

The appropriate location on the Proposal Signature Page shall be marked to acknowledge receipt of this Addendum.

“To meet current and future needs, serving together with public and private entities, while fostering a respectful and successful work environment.”
