

Manufactured Home Removal

If you are ONLY having the manufactured home removed (NOT demolishing) and not replacing the home with a new or used home, then the property owner may want to contact the [Treasurer's Office](#) for property taxes.

If you are demolishing the manufactured home, please see [Demolition of Structures](#) application to complete and submit to our office.

If the existing manufactured home is being removed and relocated to another property within Grant County, it is the new owner's responsibility to complete the [Manufactured Home Placement Application](#)
