## **ASBESTOS DISPOSAL DIRECTIONS**

**POLICY:** The Ephrata Landfill is the only landfill permitted in Grant County to accept asbestos waste materials. Only that waste which is being derived within Grant County will be accepted.

**DEFINITION:** Asbestos containing waste material means any waste which contains commercial asbestos and is generated by a source subject to the provisions of the Code of Federal Regulations-40 (Subpart M) National Emission Standard for Asbestos, Part 61, including asbestos mill tailings, control device asbestos waste, friable asbestos waste material, and bags or containers that previously contained commercial asbestos.

**DISPOSAL PROCEDURES:** Asbestos must be sealed into leak-tight containers or double-bagged in 6 mil (minimum) polyethylene for a total of 12 mil.

Customers must call the Ephrata Landfill at 754-4319 at least twenty-four (24) hours in advance to make proper arrangements for asbestos disposal. Customers must fill out an "Asbestos Waste Shipment Record" prior to disposal. This form is attached to these directions. Two copies of the form must be brought to the landfill.

Disposal is to be before 10:00 am Monday through Friday.

Disposal fee is 49.33 per ton. (Includes 3.6% state refuse tax)

An equipment operator shall have a site prepared for disposal and shall cover the asbestos waste material with six (6) inches of compacted non-asbestos waste material within 24 hours.
